Portfolio: <https://devante-portfolio.herokuapp.com/about>

Full-Stack Web Developer utilizing a background in customer service and management to provide strong problem solving skills and the ability to work in a team oriented environment to reach a shared goal. An ambitious individual eager to learn daily and leverage technical skills as part of a fast-paced, quality-driven team to build better web experiences that are innovative and satisfying for users world wide.

TECHNICAL SKILLS

HTML5, CSS3, APIs, Heroku, React.js, React, jQuery, Express, MongoDB, JavaScript, MySQL, Node.js, JSX, GitHub, Mongoose, GIT, AJAX, ES6+, ES5, Terminal, JSON, Python

PROJECTS

Intuitive Banana | **Deployed Link:** <https://drbailey13.github.io/IntuitiveBanana/index.html> | **Github Repository:** <https://github.com/DrBailey13/IntuitiveBanana>

This page uses 3 different API's, Ticket Master, Audio DB and the New York Times to allow users to pull information about genre related news, featured songs and artists, local concerts and search artist information by their name. Our three separate API pulls allow us to offer a holistic user experience to music information.

UNCC Bootcamp Forum | **Deployed Link:** <https://uncc-bootcamp-forum.herokuapp.com/> | **Github Repository:** <https://github.com/DrBailey13/BootcampForum>

This forum allows for all students enrolled in the full-time and part-time course to have access to each other to discuss homework questions, resources, job information, and any other topics they wish to collaborate on. A sequelize database is used to store and retrieve blog posts from students and also allows them to reply to that post.

EXPERIENCE

Patient Care Coordinator for Unified Care LLC | Danville, VA | March 2020 - Present

Coordinate the transportation, food and therapy of over 20 members on a daily basis to insure all needs are met.

EDUCATION

Full Stack Web Development Certificate - UNCC | Charlotte, NC | 2020

A 24-week intensive boot camp program focused on gaining technical programming and market-driven skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Express, React.js, Node.js, Database Theory, MongoDB, MySQL, Mongoose, Handlebars, JSX, GIT, Github, APIs, Heroku, Es6+.
